B. Answer the following questions (in three points only).

- 1) Explain any three characteristics of the Palaeolithic Age.
- 2) Describe any three changes that took place during the Neolithic Age.
- 3) Explain any three reasons why river valleys became the centres of early civilizations.
- 4) Describe any three features of early civilizations.
- 5) Explain any three ways in which agriculture changed the life of early humans.

GEOGRAPHY

Chapters: -

1. Shaping of the earth surface
2. Weather and Climate

Section A: Very Short Answer Questions (2 Marks $\times$ 5 = 10 Marks)

- 1) Differentiate between weather and climate. Give one example of each.
- 2) Name any two agents of erosion and mention one landform created by each.
- 3) State two differences between constructive and destructive plate boundaries.
- 4) Mention any two factors that influence the climate of a place.
- 5) Write any two impacts of climate change on India.

Section B: Short Answer Questions (3 Marks $\times$ 5 = 15 Marks)

- 6) Explain the process of weathering. Mention its three types with one example each.
- 7) How do rivers shape the Earth's surface? Explain with any three landforms formed by river action.
- 8) Describe the mechanism of the Indian Monsoon in three points.
- 9) Explain the role of latitude, altitude, and distance from the sea in influencing climate.
- 10) Why are earthquakes considered natural disasters? Mention any three safety measures during an earthquake.

Section C: Long Answer Questions (5 Marks × 5 = 25 Marks)

- 11) Explain the Theory of Plate Tectonics. Describe the three types of plate boundaries and the landforms produced by each with suitable examples.
- 12) Describe the work of different agents of gradation (river, wind, glacier, sea waves, and underground water) in shaping the Earth's surface.
- 13) Explain the seasons of India. Describe the characteristics of:
 - a) Winter Season
 - b) Summer Season
 - c) Southwest Monsoon Season
 - d) Retreating Monsoon Season
- 14) "The Indian Monsoon is a unifying bond." Justify the statement with five suitable points.
- 15) What is climate change? Explain its causes, effects, and suggest five measures to reduce carbon footprint and protect the environment.

POLITICAL SCIENCE

2-Mark Questions:

- 1) Define democracy.
- 2) Why are elections necessary in a democracy?
- 3) What is meant by the rule of law?
- 4) What is political equality?
